

CANTEK

INNOVATION IN FOOD SECURITY

Click on the icons for information 

Based in Antalya / Turkey, CANTEK is food storage and processing specialist for 30 years, in 65+ countries, with 15.000+ projects completed successfully. We produce with high technology and quality all the equipments and realize turnkey cold storage, slaughterhouse / meat processing (red meat, poultry, fish) and plant factory projects worldwide.

We are offering complete solutions including project developing, production, facility installation, service, warranty, remote controlling and managing systems. In addition, we provide saving in energy consumption up to 71%.

We think that it is a right for all humanity to reach healthy, economic and continuous food. So, our corporate philosophy is to develop innovative solutions to provide food security.

It is our goal to ensure that producers are rewarded for their efforts, and all countries thrive by using their own resources in the best way.
